## STATEMENT

I am a seasoned biostatistician with a strong background in Bayesian Nonparametric, Longitudinal, Survival, and joint modeling of data involving multiple types of responses, often grappling with intricate issues like missing data and detection limits. To date, my contributions encompass over 58 peer-reviewed articles featured in esteemed biomedical and public health journals and my work has been cited by researchers from all over the world, including Proposed rule by US Food and Drug Administration and presidential advisory statement from American Heart Association. In my role as a Biostatistician, I bring forth not only expertise but also a wealth of experience, ensuring the accuracy, security, and reproducibility of data entry. Moreover, I possess extensive knowledge in conducting quasi-experimental analyses on large and complex national survey and administrative datasets, aimed at identifying effective policies for controlling substance use and interventions for a variety of behavioral and health outcomes.

## EDUCATION

May 2026 (Expected) Ph.D. in Biostatistics, The Ohio State University, Columbus, OH.

May 2024 (Expected) M.S. in Statistics, The Ohio State University, Columbus, OH.

Dec. 2018 M.S. in Biostatistics, Case Western Reserve University, Cleveland, OH.

May 2017, B.S. in Business Administration, The Ohio State University, Columbus, OH.

## HONORS

- 2021-2022 University Fellowship, The Ohio State University, Columbus, OH

## RESEARCH EXPERIENCES

Research Associate. Supervisor: Dr. Stanley Lemeshow.  
The Ohio State University, Columbus, OH. Aug. 2023 – Present

- Provided statistical consultation to investigators in the Department of Otolaryngology.

Biostatistician II. Supervisor: Dr. Sunday Azagba.  
University of Utah, Salt Lake City, UT. Dec. 2018 – July. 2021

- Consulted with investigators to determine research questions and data needed in studying substance use policy, health disparities, health behaviors, and related research.
- Collaborated with investigators to define research questions and identify the necessary data in studying substance use policy, health disparities, and health behaviors.
- Drafted statistical methods sections in manuscripts, presentations, and grant applications.
- Executed complex statistical analyses, addressing research inquiries by working with large, intricate national survey datasets. This involved merging and processing data using the SAS and R statistical packages.

Statistical Research Assistant. Supervisor: Dr. Abdus Sattar  
Case Western Reserve University, Cleveland, OH. Feb. 2018 – Dec. 2018

- Support statistical need in HIV studies including sample size calculation.
- Conducted statistical analyses using the SAS and R statistical packages for both longitudinal and cross-sectional studies.
- Generated detailed reports and graphs to succinctly present the findings.

## TEACHING AND ADVISING EXPERIENCE

The Ohio State University, Columbus, OH

Position: Teaching Associate

1. PUBHBIO 2210 Biostatistics for Public Health Research (Fall, 2022)
2. PUBHBIO 6210 Applied Biostatistics I (Fall, 2022)
3. PUBHBIO 6250 Regression Methods for the Health Sciences (Spring, 2023)
4. PUBHBIO 6270 Introduction to SAS for Public Health Students (Spring, 2023)

Case Western Reserve University, Cleveland, OH

Position: Teaching Associate

1. PQHS 414 Data Management and Statistics Programing (SAS) (Fall, 2018)
2. Medical statistics for MD students (Lerner College of Medicine) (Summer, 2018)
